**Erth's DINOSAUR ZOO LIVE™** is an experiential theatre production which takes audiences on a prehistoric journey into a new dimension where they get to meet a menagerie of insects, mammals and dinosaurs that once roamed the planet millions of years ago. Featuring a large-scale cast of life-sized dinosaur puppets brought to life by sophisticated design and theatrical presentation and puppet mastery, these amazingly life-like dinosaur recreations connect children to paleontology in a fun and informative setting. This new production will feature nineteen dinosaurs on stage, including the awesome Triceratops which Erth created uniquely for the North American tour. Children can watch and learn, but can also interact with the creatures in this fun, educational and unique presentation.

**Erth's DINOSAUR ZOO LIVE™** is both entertaining and educational. *The Chicago Tribune* loved it, saying: 'A delightful and educational date with the dinos that provides visual oomph to rival 'The Lion King''. *The New York Times* said, "Erth's Dinosaur Zoo delivers solid science as well as an extraordinary spectacle."

**Erth's DINOSAUR ZOO LIVE™** is the creation of one of Australia's most innovative and creative companies, **Erth Visual & Physical, Inc.**, who bring the impossible to life. For over 21 years, the company has developed a truly fantastic aesthetic and an extraordinary box of tricks, which now serve as the foundations of its unique visual and physical theatre work. Their work ranges from large-scale interactive environments such as 'The Garden', a prehistoric landscape inhabited by giant insects which premiered at the Melbourne International Festival of Arts, to more intimate in-theatre work and roving spectacles. The company regularly tours internationally and more than a million people have seen its dinosaurs in museums, and in performance works such as Radio Lab's *Apocalyptical*, Dinosaur Petting Zoo™ and **DINOSAUR ZOO Live™**. Writing about Erth, *The Sydney Morning Herald* said; 'It's a rare and pleasurable work that manages technical brilliance, cultural insight and enchantment all in one go.'

**Erth's DINOSAUR ZOO LIVE™** is written and directed by **Scott Wright** the co-founder of **Erth Visual and Physical Inc.** and its Artistic Director since inception in 1990. He trained as a dancer and choreographer in Victoria, Australia and is a multi-skilled artist incorporating puppetry (one of his greatest loves), movement, acting, aerial, stilts and pyrotechnics. During this period, Scott steered the company through many twists and turns, creating a successful national and international touring profile. Scott has directed most of Erth's successful touring shows, and worked with a large variety of national and

international companies and institutions, individual artists and community groups. Scott is currently focusing on the survival of indigenous folklore, exploring how ancient stories can be retrieved and presented to new audiences. This exploration takes him to remote communities throughout Australia, to meet with elders, learning and developing methods in which puppetry can tell stories of ancient creatures and landscapes.

**Sharon Kerr** is the Associate Director for Erth and **Steve Howarth** is their head of design and works very closely with specialist puppet maker **Bryony Anderson** in the creation of the dinosaurs, puppets and flora that makes up the set, and **Phil Downing** is the show's Composer.

The North American tour of **Erth's DINOSAUR ZOO LIVE™** is produced by **Red Tail Entertainment** based in Dallas, Texas.

The company of **Erth's DINOSAUR ZOO LIVE™** will be lead on stage by 'Host' **Charlie Jhaye** with **Miron Gusso, Joe Aholt** and **Eryn Malafronte** as puppeteers.
